Rising 5th Graders Reading Response Summer 2016

5th Grade SOLs: At the fifth-grade level, students will become increasingly independent readers of a variety of literary forms. Strategies such as word analysis and the use of context clues and word references will help students increase fluency as well as comprehension. They will begin to read text critically in order to examine implied relationships and understandings, recognize how character and plot are developed, and formulate and justify opinions about the text. They will organize the information they extract from the text and represent their understandings on charts, maps, and graphs.

Goal: Read three books

Students: Write information on the attached forms about the books you read. Give this to your teacher when you return in September. You will receive points on your first quarter grade for **quality** work turned in.

Name:	
1 4011101	

Please choose a reading response for each text you list. You may use a response more than once, but there should be at least **three** different types of responses for your summer reading.

FICTION

- How is a character in your book similar to a character in another book, movie, or someone you know?
- What does this book remind you of in your own life?
- Which character would you like (or not like) to be your friend? Why?
- What advice would you give to a particular character? Why?
- What was one of your favorite lines (or sentences) in what you read? Copy it down and tell why you liked it. It can be more than one sentence but not too long!
- If you could change one thing in the book, what would it be? Why would you change it?
- What surprised you in the book?
- If you could ask the author about this book, what questions would you ask?
- Choose 3 new words you learned in this book. What do they mean?
- Create a graphic organizer, such as a story map or character chart, to tell about what you read.

NONFICTION

- What do you know that you didn't know before you read this?
- What surprised you most about this topic?
- What else do you want to know about this topic?
- Do you think you would read another book by this author? Why or why not?
- How could you apply what you learned to your own life?
- If you could change one thing in the book, what would it be? Why would you change it?
- Why was this topic important to you?
- Was this information organized in a helpful way? Why or why not? Give examples.
- Choose 3 new words you learned in this book. What do they mean?
- Create a chart to organize some of the information you learned from reading about the topic.
